Preface	XII
Part I Brouwer and Brouwerian intuitionism	
Another look at Brouwer's dissertation	
<i>Dirk van Dalen</i>	3
Brouwerian infinity	
<i>Carl Posy</i>	21
The new intuitionism	
<i>Charles McCarthy</i>	37
Truth and experience of truth	
<i>Jacques Dubucs</i>	50
The proper explanation of intuitionistic logic: on Brouwer's demonstration of the Bar Theorem	
<i>Göran Sundholm and Mark van Atten</i>	60
The intersection of intuitionism (Brouwer) and phenomenology (Husserl)	
<i>Richard Tieszen</i>	78
Brouwer on 'hypotheses' and the middle Wittgenstein	
<i>Mathieu Marion</i>	96
Brouwer's notion of intuition and theory of knowledge by presence	
<i>Mohammad Ardeshir</i>	115

Buddhist models of the mind and the common core thesis on mysticism	
<i>Henk Barendregt</i>	131

Part II Kindred spirits

Remarks on the supposed French ‘semi-’ or ‘pre-intuitionism’	
<i>Alain Michel</i>	149
Poincaré: intuitionism, intuition, and convention	
<i>Gerhard Heinzmann and Philippe Nabonnand</i>	163
Some of Julius König’s mathematical dreams in his <i>New Foundations of Logic, Arithmetic, and Set Theory</i>	
<i>Marcel Guillaume</i>	178
Gödel, constructivity, impredicativity, and feasibility	
<i>Jean Fichot</i>	198
Lorenzen’s operative justification of intuitionistic logic	
<i>Peter Schroeder-Heister</i>	214

Part III Mathematical perspectives

The Hilbert-Brouwer controversy resolved?	
<i>Per Martin-Löf</i>	243
Proof theory and Martin-Löf Type Theory	
<i>Anton Setzer</i>	257
Some remarks on linear logic	
<i>Mitsuhiro Okada</i>	280
Two applications of dynamic constructivism: Brouwer’s continuity principle and choice sequences in formal topology	
<i>Giovanni Sambin</i>	301
A reverse look at Brouwer’s Fan Theorem	
<i>Douglas Bridges</i>	316
Some applications of Brouwer’s Thesis on Bars	
<i>Wim Veldman</i>	326
 Concluding remarks at the Cerisy conference	
<i>Michael Dummett</i>	341

A bibliography of L.E.J. Brouwer
Dirk van Dalen 343
