

Table of Contents

I Emotions and ICT

Cross-Fertilization between Studies on ICT Practices of Use and Cross-Modal Analysis of Verbal and Nonverbal Communication	1
<i>Leopoldina Fortunati, Anna Esposito, and Jane Vincent</i>	
Theories without Heart	5
<i>Leopoldina Fortunati</i>	
Prosodic Characteristics and Emotional Meanings of Slovak Hot-Spot Words	18
<i>Štefan Beňuš and Milan Rusko</i>	
Affiliations, Emotion and the Mobile Phone	28
<i>Jane Vincent</i>	
Polish Emotional Speech Database - Recording and Preliminary Validation	42
<i>Piotr Staroniewicz and Wojciech Majewski</i>	
Towards a Framework of Critical Multimodal Analysis: Emotion in a Film Trailer	50
<i>Maria Bortoluzzi</i>	
Biosignal Based Emotion Analysis of Human-Agent Interactions	63
<i>Evgenia Hristova, Maurice Grinberg, and Emilian Lalev</i>	
Emotional Aspects in User Experience with Interactive Digital Television: A Case Study on Dyslexia Rehabilitation	76
<i>Filomena Papa and Bartolomeo Sapio</i>	
Investigation of Normalised Time of Increasing Vocal Fold Contact as a Discriminator of Emotional Voice Type	90
<i>Peter J. Murphy and Anne-Maria Laukkanen</i>	
Evaluation of Speech Emotion Classification Based on GMM and Data Fusion	98
<i>Martin Vondra and Robert Vích</i>	
Spectral Flatness Analysis for Emotional Speech Synthesis and Transformation	106
<i>Jiří Přibíl and Anna Přibilová</i>	

II Verbal and Nonverbal Features of Computational Phonetics

Voice Pleasantness of Female Voices and the Assessment of Physical Characteristics	116
<i>Vivien Zuta</i>	
Technical and Phonetic Aspects of Speech Quality Assessment: The Case of Prosody Synthesis	126
<i>Jana Tučková, Jan Holub, and Tomáš Duběda</i>	
Syntactic Doubling: Some Data on Tuscan Italian	133
<i>Anna Esposito</i>	
Perception of Czech in Noise: Stability of Vowels	149
<i>Jitka Veroňková and Zdena Palková</i>	
Challenges in Segmenting the Czech Lateral Liquid	162
<i>Radek Skarnitzl</i>	
Implications of Acoustic Variation for the Segmentation of the Czech Trill /r/	173
<i>Pavel Machač</i>	
Voicing in Labial Plosives in Czech	182
<i>Annett B. Jorschick</i>	
Normalization of the Vocalic Space	190
<i>Jan Volín</i>	

III Algorithmic and Theoretical Analysis of Multimodal Interfaces

Gaze Behaviors for Virtual Crowd Characters	201
<i>Helena Grillon, Barbara Yersin, Jonathan Maïm, and Daniel Thalmann</i>	
Gestural Abstraction and Restatement: From Iconicity to Metaphor	214
<i>Nicla Rossini</i>	
Preliminary Prosodic and Gestural Characteristics of Instructing Acts in Polish Task-Oriented Dialogues	227
<i>Maciej Karpiński</i>	
Polish Children's Gesticulation in Narrating (Re-telling) a Cartoon	239
<i>Ewa Jarmołowicz-Nowikow</i>	
Prediction of Learning Abilities Based on a Cross-Modal Evaluation of Non-verbal Mental Attributes Using Video-Game-Like Interfaces	248
<i>Yiannis Laouris, Elena Aristodemou, and Pantelis Makris</i>	

Automatic Sentence Modality Recognition in Children's Speech, and Its Usage Potential in the Speech Therapy	266
<i>Dávid Sztahó, Katalin Nagy, and Klára Vicsi</i>	
Supporting Engagement and Floor Control in Hybrid Meetings	276
<i>Rieks op den Akker, Dennis Hofs, Hendri Hondorp, Harm op den Akker, Job Zwiers, and Anton Nijholt</i>	
Behavioral Consistency Extraction for Face Verification	291
<i>Hui Fang and Nicholas Costen</i>	
Protecting Face Biometric DCT Templates by Means of Pseudo-random Permutations	306
<i>Marcos Faundez-Zanuy</i>	
Facial Expressions Recognition from Image Sequences	315
<i>Zahid Riaz, Christoph Mayer, Michael Beetz, and Bernd Radig</i>	
Czech Artificial Computerized Talking Head George	324
<i>Josef Chaloupka and Zdenek Chaloupka</i>	
An Investigation into Audiovisual Speech Correlation in Reverberant Noisy Environments	331
<i>Simone Cifani, Andrew Abel, Amir Hussain, Stefano Squartini, and Francesco Piazza</i>	
Articulatory Speech Re-synthesis: Profiting from Natural Acoustic Speech Data	344
<i>Dominik Bauer, Jim Kannampuzha, and Bernd J. Kröger</i>	
A Blind Source Separation Based Approach for Speech Enhancement in Noisy and Reverberant Environment	356
<i>Alessio Pignotti, Daniele Marcozzi, Simone Cifani, Stefano Squartini, and Francesco Piazza</i>	
Quantitative Analysis of the Relative Local Speech Rate	368
<i>Jan Janda</i>	
Czech Spontaneous Speech Collection and Annotation: The Database of Technical Lectures	377
<i>Josef Rajnoha and Petr Pollák</i>	
BSSGUI – A Package for Interactive Control of Blind Source Separation Algorithms in MATLAB	386
<i>Jakub Petkov and Zbyněk Koldovský</i>	
Accuracy Analysis of Generalized Pronunciation Variant Selection in ASR Systems	399
<i>Václav Hanžl and Petr Pollák</i>	

Analysis of the Possibilities to Adapt the Foreign Language
Speech Recognition Engines for the Lithuanian Spoken Commands
Recognition 409
 Rytis Maskeliunas, Algimantas Rudzionis, and Vytautas Rudzionis

MLLR Transforms Based Speaker Recognition in Broadcast Streams ... 423
 Jan Silovsky, Petr Cerva, and Jindrich Zdansky

Author Index 433
