

Contents

Session A: Building Sustainability

Achieving Energy Efficiency in Office Building	1
<i>Rusdy Hartungi, Liben Jiang</i>	
Energy Analysis of Ventilated Roof	15
<i>F. Patania, A. Gagliano, F. Nocera, A. Ferlito, A. Galesi</i>	
An Analytic Hierarchy Process Model for Assessing Occupants' Adaptations to Thermal Comfort in Offices	25
<i>Jing Liu, Runming Yao, Rachel McCloy</i>	
Advantages of Using Raw Materials in Ancient and Recent Buildings	35
<i>A. Murta, H. Varum, J. Pinto</i>	
Energy Saving Technologies for Conventional Dwellings – A 'Whole House' Concept	45
<i>Pat Addy, Dave Webb</i>	
Modifying Courtyard Wall Geometries to Optimize the Daylight Performance of the Courtyard	57
<i>Ahmed A. Freewan</i>	
Research on the Current Condition of Rural Housing and Strategy of Low-Consumption in Northern China	65
<i>Wei Zhao, Hong Jin</i>	
The Design Study of Energy-Saving Rural House in Rural Areas in Heilongjiang Province, China	73
<i>Xin-yu Zhang, Hong Jin</i>	

Numerical and Experimental Study of the Natural Convection in a Tall Closed Cavity	83
<i>Jesús Benito Pérez Valenzuela, Armando Piña Ortiz, Jesús Fernando Hinojosa Palafox, Rafael E. Cabanillas López</i>	
Numerical Study of Heat Transfer by Free and Forced Convection in a Ventilated Cavity	91
<i>Norma Alejandra Rodríguez Muñoz, Jesús Fernando Hinojosa Palafox, Karl Kohlhof</i>	
 Session B: Sustainable Power Generation	
Model Predictive Control of Wind Energy Storage System for Frequency Regulation	101
<i>Muhammad Khalid, Andrey V. Savkin</i>	
Development of a Simulation Tool to Predict Urban Wind Potential	111
<i>Christina Beller</i>	
Direction Dependent Power Curves for Wind Power Prediction: A Case Study	121
<i>Muhammad Khalid, Andrey V. Savkin</i>	
Tools and Techniques for Intelligent Characterization of Fuels	129
<i>S.D. Walters, C. Crua</i>	
Use of Super-Capacitor to Enhance Charging Performance of Stand-Alone Solar PV System	139
<i>B.J. Huang, P.C. Hsu, P.Y. Ho</i>	
Displacement of Conventional Domestic Energy Demands by Electricity: Implications for the Distribution Network	149
<i>Roger Morgan</i>	
Experimental Investigation of CI Engine Operated Micro-Trigeneration System Fuelled with Karanj Methyl Ester-Diesel Blend	159
<i>Dilip Sharma, Kamal Kishore Khatri, S.L. Soni, Deepak Tanwar</i>	

Session C: Sustainable Energy Policy and Strategy

Renewable Energies in the EU Energy Policy: Model of Territorial Distribution of Efforts to Meet the Strategic Goal for 2020	169
<i>A. Tolón-Becerra, X. Lastra-Bravo, F. Bienvenido-Bárcena</i>	
Future-Proofed Design for Sustainable Communities	179
<i>Maria-Christina Georgiadou, Theophilus Hacking</i>	
Enabling Low Carbon Living in New Housing Developments – A Triple Bottom Line Analysis	189
<i>Steffie Broer, Helena Titheridge</i>	
Aspects of Life Cycle Investing for Sustainable Refurbishments in Australia	201
<i>Eckhart Hertzsch, Chris Heywood, Mirek Piechowski, Adrian Rowe</i>	
Advent of Climate Change and Resultant Energy Related Obsolescence in the Built Environment	211
<i>T.E. Butt, B.D. Giddings, J.C. Cooper, B.B.N. Umeadi, K.G. Jones</i>	
Environmental Attitudes and Energy Initiatives within the Greek Hotel Sector	225
<i>Eva Maleviti, Yacob Mulugetta, Walter Wehrmeyer</i>	

Session D: Energy Monitoring and Management

The EcoSense Project: An Intelligent Energy Management System with a Wireless Sensor and Actor Network	237
<i>Pedro Díaz, Teresa Olivares, Raúl Galindo, Antonio Ortiz, Fernando Royo, Tomás Clemente</i>	
The Use of Intelligent Systems for Monitoring Energy Use and Occupancy in Existing Homes	247
<i>Catalina Spataru, Mark Gillott</i>	
Assessing the Energy Performance of Office Buildings	257
<i>Chr. Konstantinidou, A. Dimoudi, P. Kosmopoulos</i>	

Session E: Solar Energy Technology

Optimisation of Integrated Low-Carbon Energy Strategies: A Case Study for ‘Zero Carbon’ Social Housing in the UK	265
<i>Li Mei, P.N. Rowley</i>	

Characterisation of a Line-Axis Solar Thermal Collector for Building Façade Integration	277
<i>M. Ramirez-Stefanou, T. Mallick, M. Smyth, J.D. Mondol, A. Zacharopoulos, T.J. Hyde</i>	
Proposed Model for Design of Photovoltaic Mounted Steep Roof Systems and Case Study: Istanbul, Turkey	289
<i>A. Muthu, A.N. Turkeri</i>	
Author Index	299
