VII Preface

Rabenau, H.F.; Cinatl, J.; Doerr, H.W. (Frankfurt/Main)

1 Transmissible Spongiform Encephalopathies: The Viral Concept and an Application

Diringer, H. (Berlin)

7 The Prion Theory: Background and Basic Information

Riesner, D. (Düsseldorf)

21 [URE3] and [PSI]: Prions of *Saccharomyces cerevisiae*

Taylor, K.L.; Wickner, R.B. (Bethesda, Md.)

32 Structural Biology of Prions

Cappai, R.; Jobling, M.F.; Barrow, C.J.; Collins, S. (Parkville)

48 Strain Variations and Species Barriers

Hill, A.F.; Collinge, J. (London)

58 Resistance of Transmissible Spongiform Encephalopathy Agents to Decontamination

Taylor, D.M. (Edinburgh)

68 Human Prion Diseases: Cause, Clinical and Diagnostic Aspects

Knight, R. (Edinburgh); Collins, S. (Parkville)

93 Epidemiology and Risk Factors of Transmissible Spongiform Encephalopathies in Man

Zerr, I.; Poser, S. (Göttingen)

105 Bovine Spongiform Encephalopathy and Its Relationship to the New Variant Form of Creutzfeldt-Jakob Disease

An Account of Bovine Spongiform Encephalopathy, Its Cause, the Clinical Signs and Epidemiology Including the Transmissibility of Prion Diseases with Special Reference to the Relationship between Bovine Spongiform Encephalopathy and the Variant Form of Creutzfeldt-Jakob Disease

Bradley, R. (Addlestone)

145 Animal Transmissible Spongiform Encephalopathy: Clinical and Diagnostic Aspects

Kaaden, O.-R. (Munich)

151 The Challenge for the Public Health System

Minor, P.D. (Potters Bar)

160 Author Index

161 Subject Index
