

Contents

Preface	vii
Introduction	
<i>Magmatic and hydrothermal processes in ore-bearing systems</i>	1
Judith L. Hannah and Holly J. Stein	
Theoretical and Experimental Studies	
<i>Theoretical constraints on the chemistry of the magmatic aqueous phase</i>	11
Philip A. Candela	
<i>Partitioning of F and Cl between magmatic hydrothermal fluids and highly evolved granitic magmas</i>	21
James D. Webster and John R. Holloway	
<i>Internal differentiation of rare-element pegmatites; A synthesis of recent research</i>	35
David London	
Fluorine-rich Granite-Rhyolite Systems	
<i>The petrogenetic and metallogenetic significance of topaz granite from the southwest England orefield</i>	51
D.A.C. Manning and P. I. Hill	
<i>The role of fluorine in the petrogenesis of magmatic segregations in the St. Francois volcano-plutonic terrane, southeastern Missouri</i>	71
P. I. Nabelek and C. Russ-Nabelek	
<i>Melt inclusions in the quartz phenocrysts of rhyolites from Topaz and Keg Mountains, Thomas Range, Utah</i>	89
Christine Payette and Robert F. Martin	

<i>Rare-metal enriched peraluminous rhyolites in a continental arc, Sierra Blanca area, Trans-Pecos Texas; Chemical modification by vapor-phase crystallization</i>	103
Jonathan G. Price, Jeffrey N. Rubin, Christopher D. Henry, Thomas L. Pinkston, Steven W. Tweedy, and David W. Koppenaal	

Tin and Tungsten-bearing Granitoids

<i>Comparative petrologic evolution of the Sn and W granites of the Fairbanks-Circle area, interior Alaska</i>	121
R. J. Newberry, L. E. Burns, S. E. Swanson, and T. E. Smith	
<i>Mineralogical variation as a guide to the petrogenesis of the tin granites and related skarns, Seward Peninsula, Alaska</i>	143
Samuel E. Swanson, Rainer J. Newberry, Gary A. Coulter, and Thomas M. Dyehouse	
<i>Geochemistry of highly fractionated I- and S-type granites from the tin-tungsten province of western Tasmania</i>	161
W. N. Sawka, M. T. Heizler, R. W. Kistler, and B. W. Chappell	
<i>Genesis and fluid evolution of the East Kemptville greisen- hosted tin mine, southwestern Nova Scotia, Canada</i>	181
Jean M. Richardson, Keith Bell, David H. Watkinson, and John Blenkinsop	
<i>Mica chemistry as an indicator of oxygen and halogen fugacities in the CanTung and other W-related granitoids in the North American Cordillera</i>	205
W. T. van Middelbaar and J. D. Keith	
<i>The Black Pearl mine, Arizona; Wolframite veins and stockscheider pegmatite related to an albitic stock</i>	221
Christopher Schmitz and Donald M. Burt	

Tin-bearing Rhyolites, Black Range, New Mexico

<i>Genesis of the rhyolite-hosted tin occurrences in the Black Range, New Mexico, as indicated by stable isotope studies</i>	233
Robert O. Rye, John L. Lufkin, and Michael D. Wasserman	
<i>Eruptive fountains of silicic magma and their possible effects on the tin content of fountain-fed lavas, Taylor Creek Rhyolite, New Mexico</i>	251
Wendell A. Duffield	
<i>Origin of Taylor Creek rhyolite magma, Black Range, New Mexico, based on Nd-Sr isotope studies</i>	263
Cadi Reece, Joaquin Ruiz, Wendell A. Duffield, and P. Jonathan Patchett	

Other Pre-Tertiary Granitoid Examples

<i>Petrogenesis of the Proterozoic rapakivi granites of Finland</i>	275
Ilmari Haapala and O. Tapani Rämö	
<i>The Topsails igneous suite, western Newfoundland; Fractionation and magma mixing in an "orogenic" A-type granite suite</i>	287
Joseph B. Whalen and Kenneth L. Currie	
<i>Anorogenic, bimodal emplacement of anorthositic, charnockitic, and related rocks in the Adirondack Mountains, New York</i>	301
James McLelland and Philip Whitney	
<i>Geochemistry and metallogeny of Arizona peraluminous granitoids with reference to Appalachian and European occurrences</i>	317
Anne L. Shaw and John M. Guilbert	
<i>Index</i>	357
